

## UNIVERSITY OF UTAH.

Tomorrow evening in the Twenty-second ward, President J. T. Kingsbury will repeat the baccalaureate sermon which he delivered before the university graduates at the Assembly hall last June.

At the last session of the normal society the following officers were elected: Miss Rebecca Stoy, treasurer; K. K. Stephenson, vice-president; Miss Theresa Burton, secretary; Miss Genevieve Coleman, assistant secretary; Miss Anna Wilekin and John Stewart program committee.

The next Varsity ball at Christensen will be given by the student body executive committee Friday evening, April 4.

Manager Richards, of the track team, has arranged for a meet with the A. C. U. to take place at Logan, May 24.

Tomorrow evening, Professors Stewart and Allen will deliver their illustrated lecture in the Twelfth ward.

The third year normals have organized a track team with C. E. Manning as manager and a baseball team with K. K. Stephenson captain.

Instructor Best returned from California Monday. On Tuesday he met his classes as usual.

Dr. Howard will be chaplain next week.

On Monday, Professor Maul May Babcock returned from Boise City, Idaho, where she attended a meeting of Governor Hunt and the board of education of that state. The object of her trip was business connected with the school of the deaf.

The University Dramatic club will probably go to Logan with the track team if dates can be arranged for. The club contemplates visiting Ogden and Provo.

Wednesday evening Elias Hansen, A. B. '02, addressed the people of East Jordan on "Establishing High Schools in Salt Lake County." Thursday night Prof. Lyman spoke at Hunter on the same subject.

Miss Grace Nelson, who will be graduated this year from the University, has been given a position for next year in the surveyor general's office.

The athletic boys are doing indoor work at the Moore gym. This will continue until the weather gets settled.

The debate between the University of Utah and the University of Nevada will take place in this city May 16. The track meet will be the day following.

Thursday afternoon Dr. L. P. Miles of the city delivered a lecture before the normal students. His subject was "Hygiene of the Schoolroom and Transmission of Disease."

The summer school committee have secured the services of Dr. N. V. Oshoa of Wisconsin for a course of lectures during the first two weeks of the summer school. The railroads will issue the rate of one and one-half fare to those who attend.

On May 3 a track meet will take place between the University of Utah and the Latter-day Saints' university. On this occasion the Varsity brass band will make its debut.

## UNIVERSITY TRAINING SCHOOL.

Visitors at the training school this week were Mr. McCord, a county superintendent from Iowa; Ira T. Eaton of Chicago, W. S. Shearer, Mrs. R. E. Little, Mrs. J. T. Kingsbury and Mrs. R. R. Lyman of the city.

As the training school will not be in session next week the normal students in practice teaching will visit the city schools for observation work.

The fourth grade in their science work are studying sound. On Wednesday they visited the Tabernacle and listened to an organ recital by Mr. H. E. Gilles.

The first grade pupils are studying the life of Longfellow. In their constructive work they made a chair similar to the one given by the children to the great American poet.

For the benefit of teachers and Conference visitors the training school

building will be open next week and the children will be on exhibition.

## SALT LAKE CITY SCHOOLS.

Supervisor Elliott spent Wednesday morning working in the district at the Ogden and lunching with the teachers.

On Friday, March 21, the pupils of room 18, Jackson school, Miss Martin teacher, elected officers and organized themselves into an organization to be known as "The Excelsior Society," with the following officers: President, Della Brown; vice president, Jackson Newman; secretary, Ruth Emery; program committee, Anna Geis, William Harmon, Gerald Jeff.

Visitors at the Ogden during the week were Messdames. Reeves, Wilson, Shaffer, C. J. Hahn, C. M. Bruckman, Miss Simpson of Rowland Hall, and Dr. Whitney.

Language was discussed at Supervisor Pollock's meeting on Wednesday afternoon. By request Miss Martha Alexander of the Washington school conducted a class of her own pupils, and it is learned did exceedingly well.

The Jackson, Bryant, Washington, Wasatch and Longfellow schools received official visits from Supervisor Pollock the present week.

The winter term of the city schools closed yesterday, and teachers and pupils will enjoy a respite of one week. A meeting of the principals of the city schools was held on Wednesday afternoon at which routing matters were considered.

The carnival at the Webster school was held yesterday afternoon and evening. The attendance was large and the proceeds, which amounted to a neat sum will be devoted to purchase additions to the school library.

A visit was recently made to one of the large schools of the city for the purpose of forming a relative comparison of work done in a particular grade in the schools of the city. The subject under consideration on the program was U. S. history, the pupils not only showing marked attention during the recitation, but also displaying a commendable knowledge of that branch. The alert and dignified bearing of the teacher, the responsiveness of the pupils, and the unusually pleasant atmosphere of the room all were healthful evidences of efficient work.

A meeting under the direction of Superintendent Christensen was held in the teachers' room, city and county building, yesterday afternoon, at which Supervisor Pollock, members of the board of education, and principals of the various schools were present. The object of the meeting was to present in a practical manner the aim and scope of the Spear system of arithmetic, as taught in the schools of Salt Lake. As taught to beginners, the subject was presented by Miss Potter of the Jackson; first grade work was taught by Miss Murphy of the Wasatch; second grade work was delegated to Miss Van Houten of the Bryant, while Miss Siddoway of the Emerson school occupied a period in reciting the third grade work.

Great enthusiasm has been manifested at the Ogden the past week relative to the formation of an Anti-Cigarette league, the first in the city, and numbering its members, with the following constitution and by-laws:

Constitution and By-Laws of the Ogden Anti-Cigarette League.

Article 1. The name of this organization shall be the "Ogden Anti-Cigarette League."

Article 2. The purpose of this organization shall be to suppress the habit of cigarette smoking, to prevent the sale of cigarettes, and to aid in any other means in our power the suppression of it elsewhere. This refers to the "cubeb," or any other form of cigarette, as well as to the tobacco cigarette.

Article 3. The plan of this organization shall be as follows: One general league subdivided into sections, as for example, by the organization of rooms into sections.

Article 4. The officers of the general league shall be president, vice president and secretary, and these officers shall constitute a general executive committee. They shall be elected in accordance with rules hereinafter prescribed. The officers of each section shall be president, vice president and secretary, and they shall also constitute an executive committee for their respective sections and shall report matters of general interest from time to time, to the president of the general committee, as for example, upon the request of said officer.

Article 5. The officers of each section shall be elected by ballot, unless the rules are regularly suspended.

Article 6. The officers of the general league shall be elected as follows: The president of the eight highest section shall constitute a nominating committee and shall select two candidates for each of the offices to be filled. The various sections will then vote upon these candidates and the majority of all the league will elect.

Article 7. All officers shall be elected semi-annually, at the opening of schools in September and during the first week in February, provided that the first election shall take place during the last week in March, 1902, and all officers shall serve till their successors are elected. The general league shall meet only upon the call of the president, but the various sections shall meet the last Friday in each school month, or upon the call of the president.

Article 8. All pupils of the Ogden school shall be admitted to membership by signing the constitution which shall go into effect upon the adoption by six sections.

Article 9. Any member who violates the purpose of this constitution may be expelled by a majority vote of those present belonging to his section.

Article 10. Amendments may be made by a majority vote of the league. The amendment proposed must be in writing and may be presented by any member, but it must be acted upon favorably by his own section before being submitted to a vote by the general league.

FRANK DYER, Chairman,  
IRMA DAVIS, Secretary,  
ARCHIE MAILLISTER,  
CARRIE PLATTER,  
GEORGE CHAMBERLAIN, Committee.

## HIGH SCHOOL.

The Red and Black for March has appeared with its usual budget of news and humor.

Among the contributors of books for the library may be mentioned the Misses Elizabeth and Ruth Palmer, who donated a set of the Appleton cyclopedia, a gift greatly appreciated by Principal Eaton and corps of teachers, pupils and friends of the school.

Mr. Travis' room will be hereafter designated as the "map room." It already contains about 50 maps of the different countries of the world.

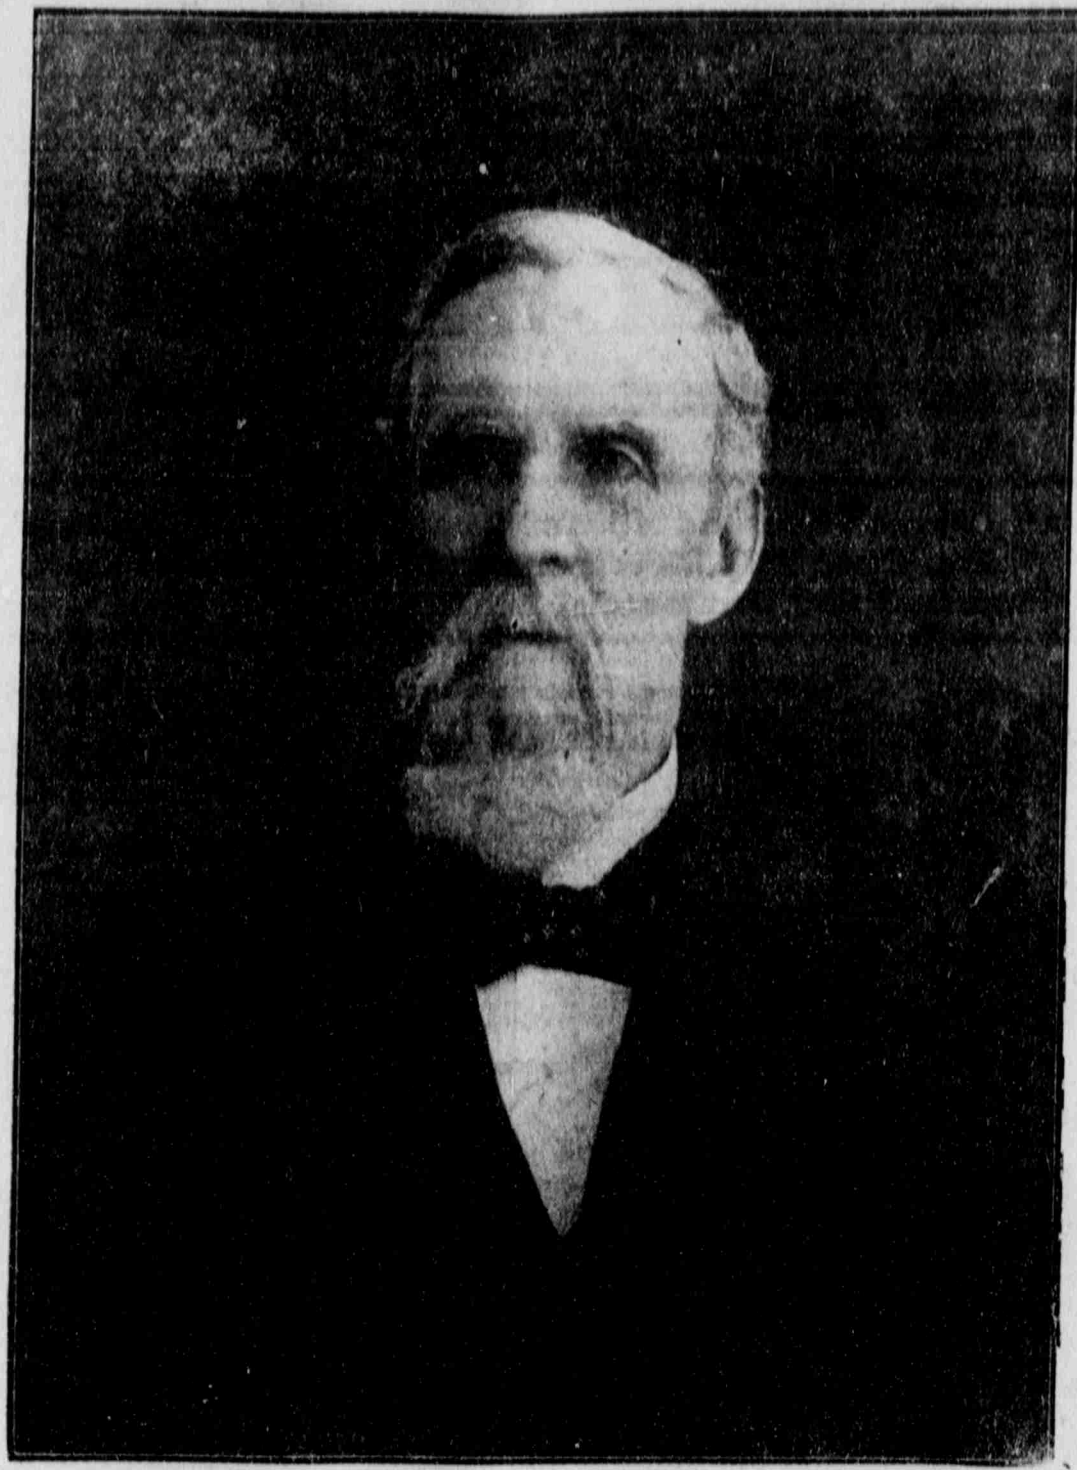

The Junior dance will occur at the Ladies' Literary club on Thursday evening.

The shadow box contains some beautiful productions from the pencil of Owings Sheekels.

Clarence McFadden is put down as coach for the baseball team.

Visitors during the week were Mr. and Mrs. L. P. Harr and daughters, Dr. Thacher, Miss Lulabel Eldridge, all

## OUR BUSIEST MEN.

W. J. NEWMAN, PRESIDENT OF THE BOARD OF EDUCATION.

W. J. Newman was born in South Witham, Lincolnshire, England, a little over 58 years ago. His parents embraced the "Mormon" faith in 1848, and emigrated to this country. They reached St. Louis in December, 1850, where Mr. Newman, Sr., died two months thereafter. In 1853 the mother brought her children to Utah, crossing the plains by ox-team and arriving in Salt Lake City, Sept. 23. Young Newman performed the various kinds of labor incident to frontier life, and assisted in building the Pacific roads, and was present on Promontory Hill when the last spike was driven by Governor Stanford of California. Mr. Newman was a first lieutenant in the Utah militia, and clerked for Teasdale & Co. and S. P. Teasdale 24 years. He has been greatly interested in educational matters and has served as director on school boards since 1884. He was elected member of the board of education of this city from the third precinct in 1890, and was again elected in 1897, returned in 1898, was vice-president of the board for two years, and is now president of the board. Mr. Newman organized the Newman-Nott shoe company, and after two years sold out in 1898, going into business on his own account. Ecclesiastically, Mr. Newman has filled positions of trust, and at present is first counselor to Bishop Emery of the Sixteenth ward.

of Salt Lake, and C. P. Bacon of Chicago.

The athletic team has been organized with the following line-up:

Manager.....Alex Thomas  
Temporary Captain.....George Webb  
Pitcher.....Sherwin Davis  
First Base.....John Hyde  
Second Base.....Christus Trip  
Third Base.....Myron Billings  
Short Stop.....George Webb  
Left Field.....Max Brown  
Center Field.....Will Fowler  
Right Field.....Richardson

Dr. Thacher made an address on Wednesday morning in assembly No. one, which was highly appreciated. Subject, "The Race of Life." The Misses Harr entertained the students very pleasantly with a piano duet, and Mrs. Nellie Druce Pugsley sang with her usual acceptability.

In assembly No. three, Prof. Marshall spoke in his usual interesting manner, and Mrs. Pugsley sang and the Misses Harr executed a piano duet.

## L. D. S. UNIVERSITY.

Thos. L. Allen, of the presidency of Summit Stake, spoke at devotional exercises on Monday.

The student's dining room continues to increase in popularity. The lunch served is both ample and dainty, and has been different every day for a fortnight.

The 400 opera chairs will shortly be removed from room 300 to the gallery of Barratt Hall, and the present assembly room will be fitted up for banking and higher accounting.

Last Sunday President Paul spoke at the Fourth ward, Prof. Hinckley at the Twelfth ward, Prof. Mills at the Third ward, Prof. Peterson at the Farmington, Instructor Evans at the Second ward, Instructor Bird at the First ward, Instructor Larsen at the Fifteenth ward and Instructor Goddard at the Fourth ward. Next Sunday President Paul will lecture in the Thirty-first ward and Prof. Hinckley in the Thirteenth ward.

The next four numbers of the Gold and Blue, which has been issued bi-weekly during the school year, will be issued monthly. These numbers will be of increased size, and will contain numerous illustrations.

Special exercises will be held next Wednesday morning, at which the gleeful club will render the two latest songs of the university, and the class president will compliment the victorious athletic teams.

Among our new teachers for next year are Marlow Foster, B. S. of the state university, now in Germany, for natural science; John T. Miller, B. D., of the Battle Creek, Mich., medical school, now lecturing throughout the

state, for history and physiology; Christian Larsen, B. S., of the Agricultural college, now teaching in Cache county, for English and other languages; and Lillian H. Cannon, B. Ed., of the Oregon state normal, now teaching in the B. Y. academy, for psychology and pedagogy.

The normal department gave a very successful party in the gymnasium last night. The wood ceiling acts as a sounding board that noticeably improves the quality and volume of the orchestral music. The college orchestra played during the evening.

The class in expression was compelled for a second time to postpone the recitation contest arranged for last evening. The affair will come off next Friday evening in the Social Hall. The recitation contest is for a silver medal and is to be followed by a dance in the same hall and by class demonstrations in physical culture.

President Paul spoke before the Lion House section of devotional exercises on Thursday. In the course of a logical and forcible argument, he demonstrated the satisfaction of the assembly that a person's only real enemy among men is himself, that one cannot permanently injure another, and that each person has control of his own destiny.

The furnishing of the interior of the gymnasium makes it a first class hall for amusement purposes. The boys of the athletic association put in the ceiling, and did this work in a thorough and workmanlike manner. The painting and waxing were done by the boys of the athletic association, with base board and ceiling painting, which not only improves greatly the appearance of the interior, but serves also as a protection to the players in various sports.

Much enthusiasm was aroused among the students by the announcement of President Paul last Wednesday morning that the recitation was already at work upon the plans for the Young memorial building. He said the building will be used for high school and normal class rooms and laboratories, and will be about twice the size of the business college building. It will stand just west of Barratt hall reaching to Main street and making half of the complete circle of buildings finally to be erected.

## BRIGHAM YOUNG ACADEMY.

Provo, March 2.—Pres. Cluff will go to Beaver on Saturday to arrange for the summer school at the branch.

Prof. Hickman lectured before the teachers at the Snow academy last Saturday.

Prof. Brimhall is slowly improving in health, much to the joy of his hundreds of friends here at school.

The White and Blue will not be out until after conference vacation owing to a death in the printer's family.

Prof. Wolfe has been absent this week because of illness. His classes are continuing their work, but are anxiously waiting for his return.

School will close on Friday for a week's vacation. Many of the students are preparing to go to Salt Lake to attend conference.

Miss Ida Murdoch, '02, was a well-known visitor at school on Friday. Miss Murdoch occupied part of the time in young ladies' meetings.

Pres. Cluff lectured in young ladies' meeting last Friday on "The Girl." He considered his subject first as a daughter, then as a sister, and lastly as a student.

Prof. Nelson lectured before the conference of the four domestic wards on Sunday night. His subject was "Lucifer, the Son of the Morning."

The boys are beginning to enjoy the cross country runs as a part of their gymnasium work. Fifteen blocks is the usual course.

The library is well patronized. Teachers and advanced students make good

use of the books and magazines in the reading room.

The circular for the summer school is not being prepared for publication. Some new courses will be offered and the term extended to six weeks.

A recent letter from Miss Lulu Gates gives assurance that she will be with us during commencement week. Owing to the illness of Florio, she was obliged to cancel some dates but has now resumed her tour.

The program for literary society last Saturday consisted of a story-telling contest between the boys and the girls of English. They stood nearly equal in composition work, but the girls scored a distinct success in personal bearing and delivery.

The B. Y. A. Dramatic club is flourishing. Mrs. Freda Barnum Cluff has been selected to play "The Weaker Sex," which is soon to be put on in the opera house. Regular rehearsals are held every week, and all seem to be thoroughly in earnest, working diligently for its successful presentation.

On Friday the '02's met at the home of their classmate, Miss Zora Smith, for a very enjoyable social evening. A spicy program was rendered, games of various kinds were played, and dainty refreshments were served. Many former members of the class were present and joined in with the July 1902 spirit.

A complimentary concert was given on Tuesday night to the visitors and students of Summit Stake. The band and orchestra, the male quartet assisted by some of our cleverest singers and players, furnished the program. Miss Lulu Gates and Miss Salmon of Summit Stake students entertained the visitors at a dainty supper served in room 15.

## B. Y. A. TRAINING SCHOOL.

Miss Talmage spent her visiting day at Heber last Friday.

Miss Larsen, primary supervisor of Utah county school was a visitor last week.

A beautiful desk, made by the boys of the woodwork department, has recently been placed in the principal's office.

The training school is in receipt of a number of books. Among them are "The Grammar," "Geography," "Wheller's Graded Lessons in Reading and Spelling," The Arnold Primer, and Stepping Stones to Literature.

The training school anticipates giving an entertainment in order to get suitable books for the children's library. It will represent the children of many lands in their foreign costumes and songs. Prof. Lund is conducting the musical part of the program.

## BRIGHAM YOUNG COLLEGE.

Logan, March 27.—The lady basketball teams are becoming first class players, if not entirely so already. The senior lady team challenged the junior lady team for a game on Tuesday. The juniors made matters extremely interesting for their seniors, who, however, came out victorious. This winning team has now filed a challenge for the missionary team, which will in all probability accept, and the game will be played in the near future.

The senior basketball team of the college is quite put out of sorts from the fact that they cannot get a team to meet them. A game was arranged for with the teams of the Latter-day Saints' university, which has now withdrawn from contest.

Prof. Chamberlain and wife left Logan on Tuesday on their way to Chicago, where Prof. Chamberlain will pursue a course of study in the university during the spring and summer months. They will return in time to begin work when the institution opens next fall.

Miss Leonora Jackson and her company will appear in the college concert hall next Monday night. The students and faculty feel congratulated in having the opportunity to hear this world

renowned artist. So many tickets have already been sold, that the assembly room will no doubt be extremely well filled.

Prof. John T. Miller lectured to the gentlemen students on Monday at 9 o'clock. His talk was one of the most valuable that could possibly be dispensed to a body of young men. Prof. Miller will lecture again to the students and public in general in the assembly hall tonight.

The lady students met separately on Monday morning and listened to some very valuable instructions from Miss Bush and Miss Perry.

The class in elementary physics doubled its work this term, in order to get through with the work before the departure of Prof. Chamberlain, who was the instructor of the class. They finished up on Monday.

Robert Henderson, a student of the commercial department of the college, came back to school again, after an absence of over two weeks, caused by a severe attack of mumps.

President Kemp of the Athletic association has been kept extremely busy all the year in looking after athletic hardships. He worked in the basketball game working good, and will have some very good material for a team as soon as the basketball season has quite arrived.

President Linford lectured to the Latter-day Saints of the Sixth ward last Sunday evening.

On Tuesday evening Prof. Merrill lectured in the Third ward.

A party will be given tomorrow evening by the lady members and wives of the faculty. The entertainment will be a union of the faculty and their wives.

There will be about 20 graduates from the training school this year. The graduating class now numbers 30, and all are doing excellent work. A class organization has been effected, and a great deal of enthusiasm is being worked up among the members.

A very successful debate was carried on this week by the students of the eighth grade, who excluded the students of the seventh grade. The latter were quite anxious to attend, but being excluded, thought quite seriously of the matter, and were for a time put out of sorts. They returned good for evil, however, and surprised the eighth grade students today by bringing upon them an excellent lunch and lemonade.

Excellent work is being done all through the training school, and Principal Jensen hopes that all graduates will be admitted next year, so that the beginners can be retained through all grades.

A new feature introduced by Miss Peterson in the singing of German songs has met with eminent success. A returned missionary from Germany visited the training school this week, and pronounced the German singing excellent. He said the words were extremely well pronounced.

## BRANCH NORMAL.

Cedar City, March 28.—Principal Porter conducted chapel this week. His theme was "Lies and Liars." These he divided into four classes, black, green, cream-colored and white. As each grade of falsifiers were held up by the principal for identification a number of students were heard to remark "That's the color of my lies," or "How did he know that I was given to that class of lies?"

Apostle George Teasdale and Seymour B. Young visited the Normal on Thursday. They occupied the time of the chapel period and expressed themselves as delighted with the spirit of the school and its excellent equipment.

Mr. Sylvester Jones read a paper on "World Betterment" in students' chapel Friday.

Each member of the botany class is cultivating a small garden plot in the most suitable part of his studio. It is reported that the outlook for a good market for early vegetables is not very encouraging.

The geology class is keeping an anxious eye on the weather in anticipation of a trip to the immense iron deposits on the west side of the valley.

The faculty are busy preparing the manuscript for next year's annual. The athletic teams are to be favored with cuts in the new prospectus.

The "indoor meet" on Friday last was a decided success. Both of the basketball teams did clever work, but the cool heads and exceptionally neat work on the part of the ladies gave them the preference with the on-lookers. The pyramid building by the boys and the dumb bell drills given by the girls were the star numbers of the program. The track team scored in the high jump.

The dramatic association will present "The Box of Monkeys" Saturday next. Principal Porter addressed the B. D. society on the topic of "Method and Value of Debate."

Prof. Anderson is preparing his students for an opera.

## AGRICULTURAL COLLEGE.

Logan, March 28.—Prof. Linfield and Merrill will address the Utah State Agronomists' association, which convenes in Salt Lake City April 4.

Through the efforts of Senator Rawlins, the college has secured for the department of biology 100 biological specimens from the Smithsonian institution at Washington. They will make a very valuable addition to the biological museum.

The hall given the engineering club last Saturday night was a great social success.

The professors and students in the engineering department will join a unique entertainment Saturday evening in the auditorium. The program will consist of songs by brethren under burnt cork, and stereoscopic views under direction of Mr. Dryden.

Miss Stokes, who has been ill for some time at the residence of President Kerr, is so fully recovered as to be about again.

A challenge has been received by the athletics of the college from those of the university to contest in 12 events, track and field, at an early date, in the capital city. They will probably accept the challenge if the date can be agreed upon.

Among recent accessions to the library are a complete set of the American Shropshire Record, and a complete set bound of the American Kitchen Magazine.

Mrs. Cotey's dining is in great demand. Last Friday Prof. Yoder and Mrs. Yoder entertained the faculty of the New Jersey academy at lunch. Saturday, Prof. Engle entertained his family and friends. Next Saturday Mrs. Cotey will entertain some friends. And several other companies are being arranged for.

## A Woman's Awful Peril.

"There is only one chance to save your life, and that is through education," were the startling words heard by Mrs. L. B. Hunt, of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Bowel Remedy. Cures Dyspepsia, Loss of Appetite, Bile, etc. Only 50c. Guaranteed. For sale by Z. C. M. I. Drug Dept.

## A PIONEER PASTOR.

TELLS OF A TIME THAT TRIED HIS NERVES.

The Rev. Henry J. Huston, of the River Conference, Has Carried the Ride as Well as the Bible.

For twenty-two years the Rev. Henry J. Huston has worked in the River Conference of the Methodist church. Now a man of peace, his story is a thrilling one, at least from the time he entered the Union army as a member of Company F, Fifth Illinois Volunteers. Colorado in its early seventies was not the well-earned commonwealth that it is today, but it is his military life that is the nearer clergyman recalls most vividly. He consented to tell a reporter some of the things about himself recently, and in the course of the interview said:

"When I entered the army in 1861, I was a young man of peace, but the hardships entailed in the service caused great weakness but in addition to that, in 1865, I had a stroke of the lower jaw, and the suffering produced extreme nervousness.

"After the war I had left me, my nerves were still suffering from the shock. I had severe pains in my back, so acute that I could not rest at night, and sometimes would remain unconscious for more than an hour. My low ebb, my blood like water, my nervous colic, and almost insupportable exertion, I became short of breath.

"My wife and her sister had been benefited by Dr. Williams' Pink Pills for Pale People and finally I cannot resist the temptation to try them. I took these pills before long I had been helped, but it was not until I soon found the pain in my back, left me, and I could sleep at night. I have had no more fainting spells, my color is better, my blood is better, my nerves are better, my stomach is better, my appetite is better, my health is better, my life is better, my peace of mind is better, my happiness is better, my contentment is better, my satisfaction is better, my joy is better, my love is better, my faith is better, my hope is better, my charity is better, my grace is better, my glory is better, my kingdom is better, my power is better, my wisdom is better, my knowledge is better, my understanding is better, my insight is better, my discernment is better, my judgment is better, my reasoning is better, my intellect is better, my mind is better, my soul is better, my spirit is better, my heart is better, my lungs are better, my liver is better, my stomach is better, my bowels are better, my kidneys are better, my bladder is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better, my nervous system is better, my circulatory system is better, my respiratory system is better, my digestive system is better, my excretory system is better, my integumentary system is better, my skeletal system is better, my muscular system is better, my endocrine system is better, my immune system is better, my reproductive system is better
